

The Long Hauler™

The Latest News from J&J Truck Bodies & Trailers • Volume IX, Issue 3 • July - September 2008

New J&J Ultra Light Dump Body

Bernie Fetter, an owner/operator, recently took possession of his new J&J dump truck. The ultra light steel body is one of J&J's most popular dump truck bodies. This one is 18½ feet long, 96 inches wide and 60 inches high.

The truck also features light panels on both sides of the truck. The top panels are polished aluminum and the bottom panels are polished stainless steel. The body is mounted on a new Kenworth chassis.

Jerry Johnson (left) presented Joe Calabrese with J&J's Distributor of the Year Award during the Mid America Trucking Show.

Unity Township Orders New Trucks

It was a beautiful day at Latrobe Airport in Pennsylvania when this picture was taken of Unity Township's new J&J dump trucks. The medium-duty dump bodies are mounted on International trucks that were provided by Hunter's Truck Center in Butler, PA.

The Unity Township Public Works Department maintains approximately 140 miles of roads. Duties and responsibilities of the road crew include paving, winter maintenance, ditch cleaning, removal of fallen trees along with many other tasks.

steel body for his Kenworth truck. aggregates and trash.

Strawbridge Contracting ordered a J&J polished aluminum dump body for his Peterbilt truck. The chassis was provided by Peterbilt of Baltimore.

DYNA HAULER

The reinforced interlocking double wall panels on our smooth side dump bodies provide excellent insulation for materials like asphalt.

The Peterbilt chassis was provided by Elliott Wilson Capitol Trucks.

ECONOMIC STIMULUS ACT

On Feb. 13, President Bush signed the Economic Stimulus Act (ESA) of 2008 into law. It includes significant incentives to encourage equipment purchasing this year.

First, the ESA temporarily reinstates bonus depreciation. Companies that buy equipment in 2008 will be able to depreciate an additional 50 percent of the cost of assets placed in service this year. As with the depreciation bonus enacted in 2002, only new equipment is eligible. For more information, visit www.depreciationbonus.org.

Whether you want one unit or several, we can build the dump bodies and trailers you need.

Ask us to build you a smooth side dump body!

Somerset Welding & Steel is a subsidiary of Riggs Industries, Inc.

New off-road trailer for the steel manufacturing, mining and construction industries.

This semi-frameless half round steel trailer will be used to haul loads between buildings at a steel manufacturing facility. It will transport scrap, mill scale and slurry.

There's no substitute for a dump truck body or trailer manufactured by J&J Truck Bodies & Trailers.

New Trucks for DeIDOT

J&J Truck Equipment, in conjunction with Barr International, recently provided custom flat bed sign trucks to the Delaware Department of Transportation. The trucks are installed with generators, tool boxes, sign holder and post storage compartments, and several other options. The trucks will be used by the highway department during road maintenance and construction projects.
