

J&J ULTRA LIGHT

DYNHAULER® SERIES

Haul more payload with our ultra light HARDOX steel dump bodies.

J&J's ultra light and ultra durable steel crossmemberless dump bodies feature a telescopic M-Series (MAILHOT Industries) hydraulic cylinder, a bulkhead and doghouse formed with one-piece HARDOX® steel and newly designed single sheet side and tailgate construction. Taking out the side posts makes this an excellent lighter weight solution for your material hauling needs. If you haul rock, gravel, asphalt or other similar materials, you owe it yourself to check out the ultra light crossmemberless dump bodies from J&J Truck Bodies & Trailers. More payload means more profit.

Rely on our experience.

There's no substitute for a truck body built by the experts at J&J Truck Bodies & Trailers. We don't cut corners and we don't compromise on quality. Rely on our 50+ years of experience to build you the dump trucks you want - we'll build them to your specification and application.

The LWC ultra light HARDOX® steel dump body provides a considerable weight savings over traditional side post

ISO 9001:2008 Certified.
Quality products,
quality workmanship.
