

OILFIELD FLOAT

Custom engineered oilfield float trailers built to haul equipment at gas and drilling sites.

Our trailers are built to withstand abusive and harsh conditions that are usually found in the oilfields. This trailer can safely, easily and quickly transport oil and gas exploration equipment.

Rely on our experience.

There's no substitute for a truck body or trailer built by the experts at J&J Truck Bodies & Trailers. We don't cut corners and we don't compromise on quality. Rely on our 50+ years of experience to build you the dump trucks, trailers and tanks you want - we build to your specification and application.
