

# The Long Hauler™

The Latest News from J&J Truck Bodies & Trailers • Volume XII • Issue 4 2011

## A Letter from the President

with benefits to our community. And according to our customer survey reports, quality remains the #1 reason our customers choose J&J. We had a great year.

Somerset Welding & Steel is proud to continue the tradition of manufacturing in the U.S. We are investing resources into servicing oil & gas operators in the Marcellus Shale region, while maintaining our commitment to serving the mining, construction and waste management industries with the best quality truck bodies, trailers and truck equipment. We'd like to thank the customers and employees who have allowed us to prosper, and we look forward to continuing these valued partnerships in 2012 and beyond.

Sincerely,

Bill Riggs

J&J Truck Bodies & Trailers is a division of Somerset Welding & Steel.

## MH Material Hauler

### NEW DUMP BODY FOR CONSTRUCTION COMPANY

A construction and supply company sent their Mack chassis to J&J where it was mounted with J&J's most popular product model, the DynaHauler® MH. This dump body is the workhorse of coal and aggregate hauling. Available in steel and aluminum, these precision-engineered dump bodies are built to specification and will withstand many years of hard service. The aluminum material hauler is light weight, corrosion resistant, and our number one selling commercial dump body. J&J customers rely on the rugged DynaHauler® MH for their material hauling needs.

## DYNAHAULER®

DynaHauler is a registered trademark of Somerset Welding & Steel.

## BUILT TO WITHSTAND THE EXTREME DEMANDS OF HYDRAULIC FRACTURING

### J&J FPT-2250 Triplex: Mobile Hydraulic Fracturing System

The J&J FPT-2250 Triplex is a trailer mounted fracturing system for high pressure well stimulation. Under SAE conditions, the primary engine delivers up to 2500 BHP to the engine flywheel, and the pump will deliver approximately 2250 HHP. The system is designed to operate continuously during prolonged fracturing operations.

## Call J&J for Parts

Did you know that we stock and ship many parts in 1 or 2 business days? We will also order parts whether you have a J&J body or another brand.

- Pumps and PTOs
- Tarper parts
- Hydraulic hoist cylinders
- Tailgate hinges and latch assemblies
- Controls (air or cable)
- And much more!

We can also easily fabricate most parts in our shop, so the next time you need parts.

## KEEPING IN TOUCH

In an effort to offer our customers the most up-to-date information on new products, services, and equipment maintenance, we are asking that you provide your email address. In just 4 easy steps, you can update your contact information with J&J Truck Bodies & Trailers.

1. Email sales@jjbodies.com
2. Provide your name and your company name.
3. Write Keep In Touch in the subject line.
4. Click send.

That's it. Everyone who signs up will get a **FREE pocket knife.**

We will never sell or share email lists and we won't clutter your inbox.

## Somerset Welding & Steel Gives Back

*Provides Welding Equipment and Training to Aid Reconstruction Efforts in Haiti*

Somerset Welding & Steel has long been involved in relief efforts in Haiti. "There is a lack of skilled tradespeople and industrial equipment in Haiti, and that has been a barrier to their recovery since the earthquake. We thought it was important to put together a program that provides welding equipment and trained Haitians with basic welding skills so they could contribute to local reconstruction efforts," says Bill Riggs, president of Somerset Welding & Steel.

Bill Riggs and David Spear, quality manager, travelled to Haiti, along with welding instructor Gailyn Cornell of Ilmo Products, an industrial gas supplier, to provide 24 hours of basic welding training to eight local Haitian men. Somerset Welding & Steel coordinated the program and donated 2 Lincoln Electric welding machines to the effort, which was administered through Children's International Lifeline, a Christian mission dedicated to helping underprivileged children <http://childrenslifeline.com/>.

## Customer Photo

Brad Gamble of Gamble Trucking owns several J&J dump bodies and sent us this picture. He recently purchased this Mack chassis from WW Engine in Harrisburg and sent it to J&J where it was mounted with J&J's most popular aluminum dump body, the Material Hauler (MH).

# PVT

Pressure Vacuum  
Tank

On the Road with

J&J builds tankers, oilfield float trailers, hydraulic fracturing units, and lube and winch trucks for use in oil and gas production sites. This tanker will be used to haul water in the Marcellus Shale region. The chassis was provided by Murray Freightliner, DuBois, Pa.

# UL

Ultra Light

The multi-purpose ultra light steel dump body with no cross-members is comparable to aluminum dump bodies in weight with the proven impact and abrasion resistance of HARDOX® steel. Pocono Peterbilt, Bartonsville, Pa, provided the chassis.

# HR

Half Round

The half round barrel style dump body is ideal for use in asphalt hauling and paving applications. A construction company recently ordered several half round dump bodies through WW Engine, a Mack dealer in Somerset, PA.

## Truck for Oil and Gas Production

J&J Truck Equipment recently installed a Wildcat 100K Ramsey winch system with radio remote controls on this Peterbilt truck tractor for a trucking company who will use it haul equipment and machinery at drilling sites. Custom tool boxes and light packages were also installed.

*The optional custom woven wire was installed between the frame and 5th wheel to prevent the winch hook from falling through to the ground.*

## New Flat Bed for Contracting Company

A heavy-duty flat bed with hard wood floor was ordered by a J&J customer for their Ford F550 truck. The flat bed was outfitted with a 12 volt electric transfer pump that is mounted to a diesel tank. The pump and the tank allows the company to use the truck to fuel machinery at their job sites. The flat bed is equipped with stainless steel tool boxes, a custom top cross storage box, step ladders, and a custom rear diamond plate apron.

**877-455-8785**

**J&J Truck Equipment is the first authorized distributor of VEWI Tire Wash Systems.**

See a demo unit in action at J&J Truck Equipment's facility in Somerset, Pa. Call **877.455.8785** to schedule an appointment.

VEWI self-cleaning truck washing units recycle and filter water, controlling and containing debris on-site. Use these wash systems for lightly soiled or extremely muddy tires, undercarriages, and even the entire vehicle. Portable and permanent systems available.

## Repair and Refurbish To Save You Money

**BEFORE**

**AFTER**

All the components from this truck, used for surface mining, were cleaned, prepped, repaired, sand blasted, painted, and mounted onto a new Mack chassis provided by WW Engine. Repair and refurbishing is an excellent way for companies to extend the life of their existing equipment.

## Service Truck for Municipal Agency

A municipal water authority ordered a new service truck for this International chassis provided by Tri County Motor Sales. It was outfitted with custom light packages, 5-gallon water cask holder, under deck PTO powered air compressor with incorporated generator, shovel brackets, and drawer and shelving systems.
